WWW.GLOBUSELEVATORS.COM

At Globus Elevators, we prioritize quality in every aspect of our hydraulic lift installations.

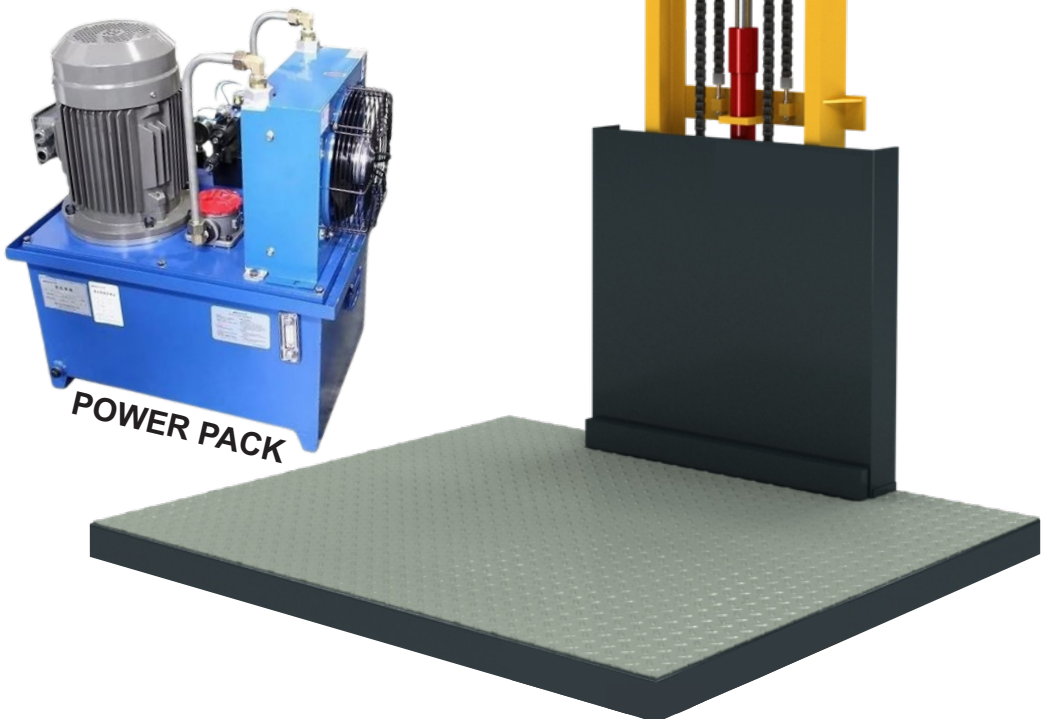

MS Structure: We use robust Mild Steel (MS) structures that provide strength and durability to our lifts.

Guide Rails: Our guide rails are designed to ensure smooth and precise movement of the lift car.

Hydraulic Pump Tank: Our hydraulic pump tanks are built to withstand heavy usage and provide reliable performance.

Hydraulic Components: Top-notch hydraulic components, such as cylinders, pumps, and valves, to ensure efficient and reliable operation.

We select high-quality raw materials for our hydraulic lift installations

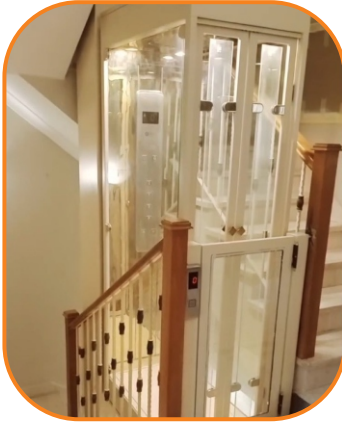

We understand that every client is unique, and their lift requirements may vary. That's why we offer customization options for our hydraulic home lifts, allowing clients to personalize their car cabin according to their needs and preferences. A customized cabin can enhance the overall aesthetic of your home, adding value and sophistication.

At Globus Elevators, we're committed to delivering exceptional quality and flexibility in our hydraulic home lifts. Our customization options allow you to create a lift that perfectly suits your needs and style.

Choose from a variety of cabin designs, including modern, traditional, or bespoke designs that fit your home's aesthetic.
