POWERING PROGRESS ACROSS INDIA.**

WWW.GLOBUSELEVATORS.COM

At **Globus Elevators**, we believe an elevator is more than a machine it is the heartbeat of a building.

With years of dedicated experience, we have established ourselves as a premier name in the Indian elevator industry.

From residential landmarks to bustling commercial complexes, we provide engineered solutions that seamlessly blend safety, aesthetics, and cutting-edge performance.

Why Choose Globus?

Pan-India Presence

Our robust service network ensures that world-class vertical transportation solutions are accessible to clients in every corner of the country.

Uncompromising Safety

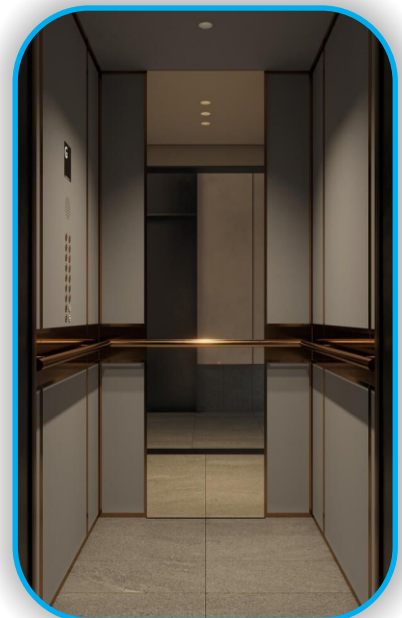

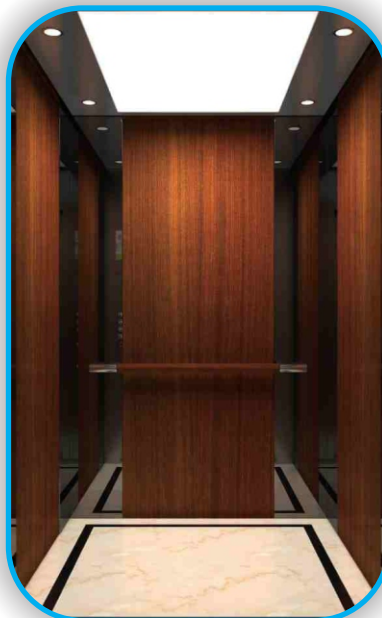

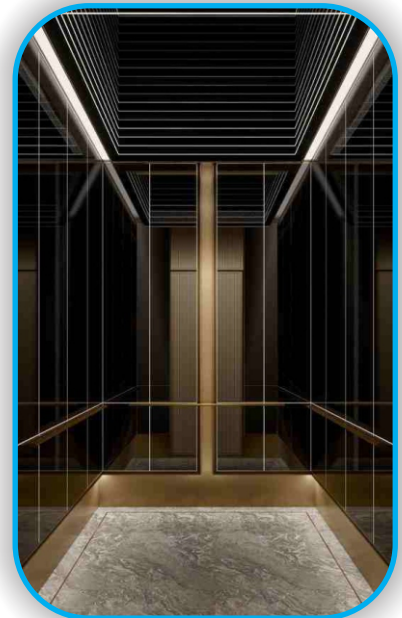

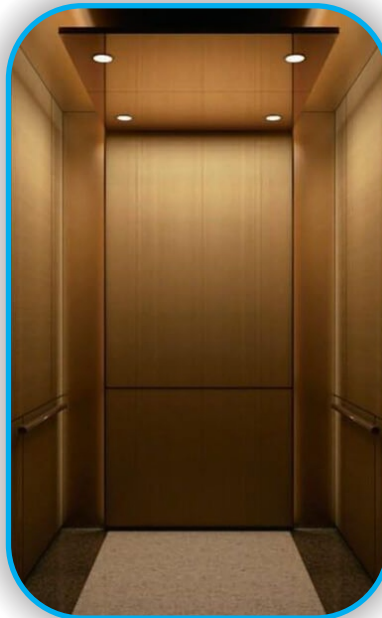

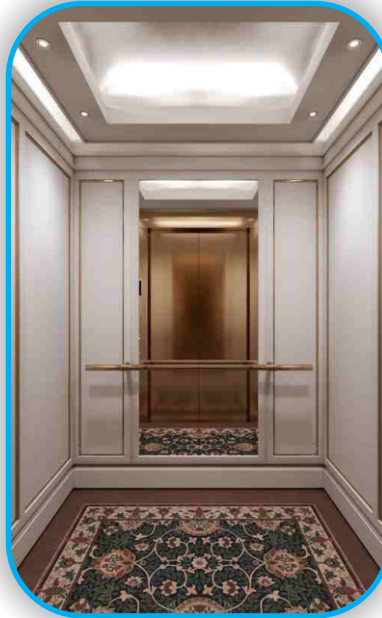

We prioritize passenger security above all else. Every installation complies with rigorous safety standards to provide you with absolute peace of mind.

Precision Engineering

We utilize advanced technology to ensure smooth, quiet, and energy-efficient rides, tailored to the architectural integrity of your building.

End-to-End Support

From expert consultation and design to seamless installation and dedicated 24/7 maintenance, we are with you every step of the way.

Technical Excellence: The Anatomy of a Globus Elevators

High-efficiency Permanent Magnet Synchronous (PM) Gearless Traction Machines
These offer 40% higher energy efficiency and a significantly quieter ride compared to traditional geared systems.

Advanced AC VVVF (Variable Voltage Variable Frequency) microprocessor-based controllers
These ensure smooth acceleration and deceleration, providing "jerk-free" travel.
The Cabin

Reinforced galvanized steel frames with customizable finishes (Stainless Steel Hairline, Mirror, Gold, or Etched designs).
Suspension System

High-tensile steel wire ropes or polyurethane-coated flat belts designed for maximum grip and minimal wear.
Guide Rails

Cold-drawn steel T-sections ensuring perfectly linear vertical movement.

COP (Car Operating Panel)
Full-height sleek panels with feather-touch buttons, Braille markings, and high-resolution TFT/LCD displays.

LOP (Landing Operating Panel)
Micro-push buttons with direction indicators and digital floor position displays on every level.

Voice Synthesizer
Multi-lingual announcements for floor arrival and emergency alerts.
